WINDOW & DOOR

Elegant Vision, Innovative Design

Double Hung | Casement | Awning | Hinge Door | Rolling Door | Specialty

How do you

view the world?

Your home is more than where you live. Your home expresses how you live and shows the way you see things. Your home is your own personal world, and every part of it is unique to your taste and your style. At Lucent Window and Door we believe that in your home, you should rule.

We create fine, custom windows that are unhampered by the constraints of stock solutions and limited choices. Our styles, shapes, glass choices and options are not driven by the preference of the market, but by the desires of your imagination. With Lucent windows and doors, you can view your home, and your world, your way.

Go ahead, turn the page. From here on, it's all about style. It's all about choice. It's all about you.

a world of options.

An Array of Options.

Add the finishing touch to your Lucent windows and doors with a coordinated combination of exterior trim and hardware. From brass to bronze, goldtone to pewter, our hardware allows you to create a look you will love. Include one of our many exterior trim options to add architectural detail and beauty to the exterior of your home.

SDL Profile Choices

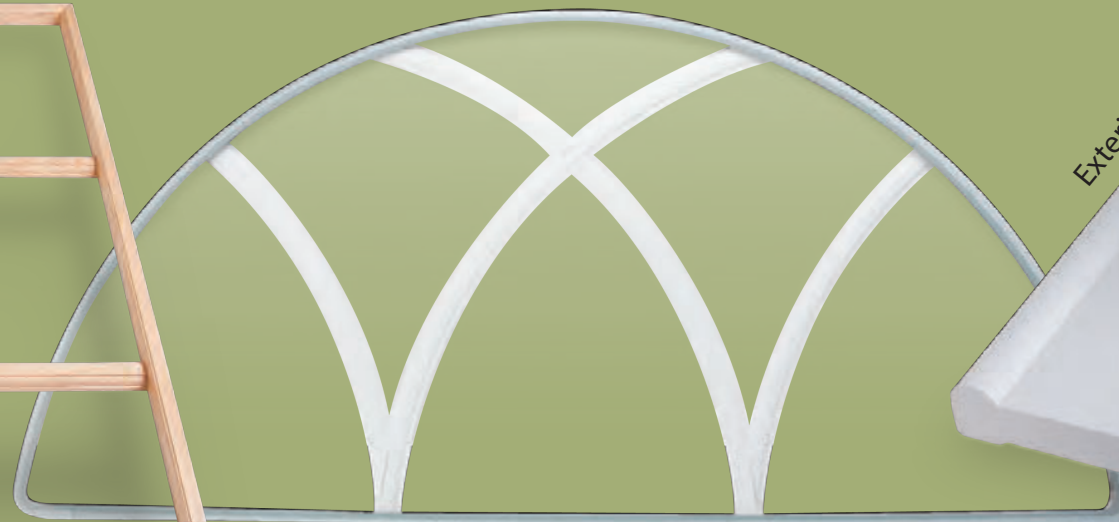

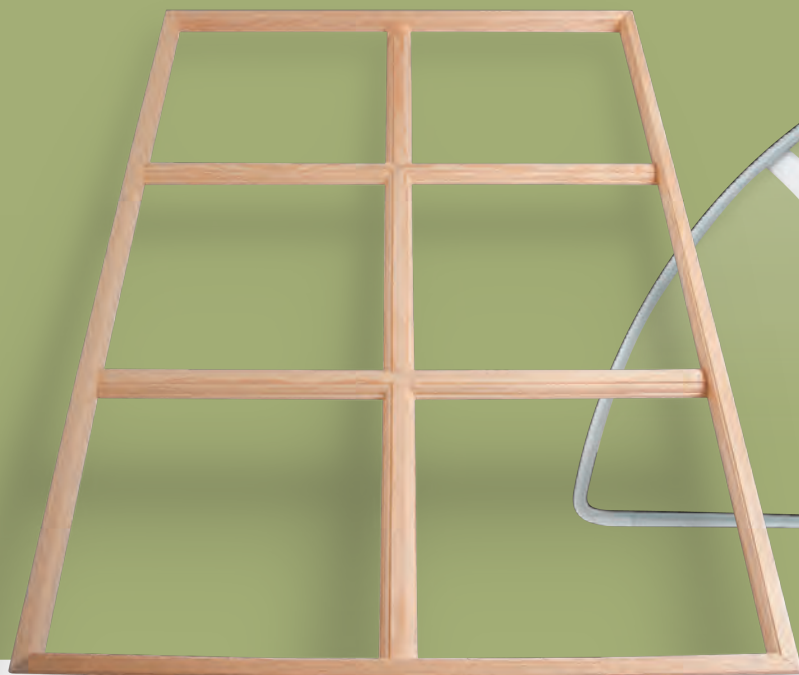

The Difference is in the Details.

Grilles - The grille is an architectural detail that adds sophistication to your windows and doors. Whether profiled or flat, between the glass or surrounding it, our selection of custom grilles offers the choices that let you set your windows apart from the rest.

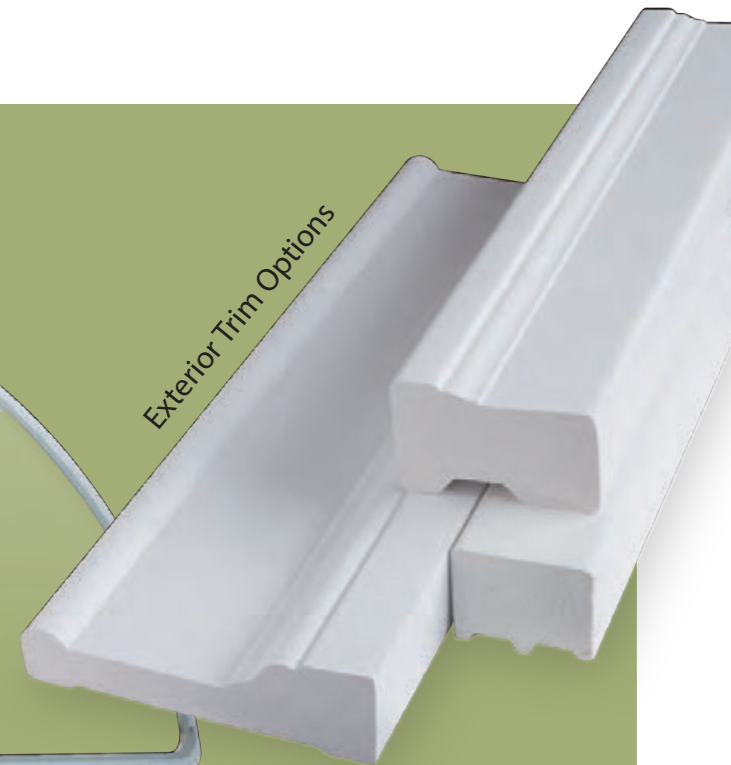

Simulated Divided Light - Looking for the ultimate combination of look and performance in a divided-light window? Lucent's simulated divided light is achieved with an aluminum extrusion on the exterior and a wood grille on the interior of the window.

The selection you desire

The perfect solution for energy savings in all climates.

At Lucent we use the best insulating glass in the industry, Cardinal™. Cardinal insulated glass is superior by design and technology to any glass on the market today. Cardinal high transmission coatings are virtually clear, blocking the heat and reducing solar gain, while optimizing light transmission. In fact, our coatings actually outperform the tinted glass often used in warm climates. In addition, because our coated glass transmits more natural light and reduces solar gain, you may be able to reduce both lighting and air conditioning electrical loads.

CARDINAL 
Glass Industries
Carries a 20 year warranty

the protection you deserve.

Welcome Home to Comfort.

Cardinal glass is the perfect shield against frigid weather. It keeps homes warmer and more comfortable by preventing heat loss while letting the sun's heat stream in.

Regardless of where you call home, choosing a window that provides optimal comfort and energy savings is critical. Selecting the right glass is a major factor in this decision. In the winter, Cardinal helps your home stay warm and cozy by blocking heat loss to the cold weather outside. Summer solar gain is about 10% less than ordinary double pane clear glass and our low U-Factor blocks heat gain from the hot weather outside. In short, it can save energy year around.

Neat.[®] Let Nature Service Your Windows.

Cardinal introduces Neat.[®] naturally clean glass. It harnesses the sun's UV rays to loosen dirt so water can rinse it away, leaving windows virtually spotless. Your windows will stay cleaner longer and will clean easier.

Preserve[™] Saves You Time, Money and a Lot of Hassle.

Cardinal's Preserve[™] window film provides an end-to-end solution to dirty and marred windows. Pre-applied on Cardinal insulating glass units, Preserve film protects your windows from the construction process. With Preserve, you can say goodbye to time- and money-wasting cleanups. At the end of construction, Preserve peels off in one easy, smooth motion, taking all the accumulated dirt and labels with it.

More style. More shapes. More choice.

Mansion Series

Double Hung | Casement | Awning | Hinge Door | Rolling Door | Specialty

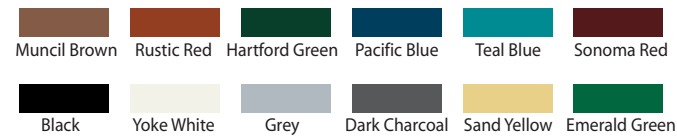

Our premium aluminum clad window and door line, the Mansion Series, includes elegant and durable products available in a variety of styles. Give your windows and doors the perfect look and feel by selecting from our array of colors, finishes, hardware and other options.
