

CertainTeed
EverNew[®]
Decking & Railing Systems

Welcome to the Decking & Railing Collection.

For more than 100 years, homeowners and building professionals have trusted CertainTeed for the highest quality building products, and continually setting the standards for exciting innovations in style and performance.

Today, that spirit of innovation comes to life in the CertainTeed Decking & Railing Collection with the industry's leading array of colors, styles, and performance. The EverNew product lines offer a combination of superior quality and style that has become the premier choice of homeowners and building professionals.

CertainTeed *Living Spaces*[®]

The comforts of home are no longer defined by four walls. Outside living spaces are “in” as porches, yards and gardens are transformed into beautiful open-air rooms. If you're longing for the joys of fresh air living, CertainTeed can help. Our Living Spaces[®] exterior products suite, including siding, soffit and accessories, porch, decking, railing, fence and roofing products, offers everything you need to create and define your own great outdoors.

CertainTeed's long-standing commitment to innovation, quality and service is firmly rooted in our founding philosophy of “Quality made Certain, Satisfaction Guaranteed.” It's a promise we take as seriously today as we did a century ago.

Get inspiration, see many other great examples of Living Spaces and join in the dialog about improving your outdoor living space by visiting:

Create a natural look

Beauty That Lasts

The beauty of EverNew® Decking goes far beyond the surface. That's because EverNew delivers a total package of aesthetic and performance benefits. From its authentic wood look, to its strength and durability, EverNew lives up to its name in every way.

Rich Shades and Textures

EverNew Decking's rich shades and multi-chromatic colors provide the look of natural wood. The natural appearance is enhanced by a woodgrain texture that's deep, beautiful and as close to real as you can get.

Note for optimum decking appearance: When dealing with butt joints or multi-chromatic colors, it is suggested you layout or "rack" 10 or more rows of decking boards across the joists so that you can ensure butt joints are properly staggered and color variations are either randomly dispersed throughout or arranged in the desired pattern. Racking not only allows you to preview how the deck will look installed, but it also provides easy access to decking boards as you work.

Color your world

A Palette of Possibilities

When it comes to designing with color, no one offers more possibilities than CertainTeed. We are the industry leader in vinyl and polymer siding, soffit, trim and accessory color availability. Our broad spectrum of choices ranges from the refreshing pastels of the WaterColors® palette to natural earth tones and deep wood blends.

When you select CertainTeed, you choose design freedom – and the ability to achieve virtually any exterior composition you can imagine.

Perfect together

Coordinated Decking, Railing and Siding

Complete the look with EverNew® Railing. EverNew Railing is offered in a variety of rich colors that are beautiful and durable. Available in vinyl and composites, EverNew has a care-free railing to suit any taste.

Finishing Touches

Details finish the look. EverNew railing comes with decorative options to create just the right style.

Please see product samples before making final selection.

Our commitment to safety

CertainTeed products meet stringent requirements for quality and performance. Safe, secure and durable, our railing and deck systems are engineered to provide years of worry-free enjoyment.

Performance that lasts

EverNew railing products are designed to maintain their integrity over time. Products made of wood may meet code when they're brand new, but can weaken over time — especially after prolonged exposure to the elements. This is an important concern if you're installing railing as a safety barrier on balconies and stairs.

EverNew ensures long-lasting performance by building security into every railing system. Our railing features heavy-duty construction for enduring strength. When it comes to rail-to-post connections, simply using plastic brackets isn't enough. EverNew offers concealed corrosion-resistant stainless steel brackets on our composite railing, and aluminum brackets concealed with molded vinyl covers on our vinyl railing, for critical protection from the elements.

Details make the difference

EverNew railing offers everything you need to install with confidence:

- ◆ Heavy-duty rails offer exceptional durability
- ◆ Secure rail-to-post connections
- ◆ Stainless-steel and aluminum rail mount brackets provide added strength
- ◆ Railing heights approved for deck, balcony, porch and stair applications
- ◆ Concealed hardware won't rust or corrode
- ◆ Splinter-free surfaces
- ◆ Class A flame spread rating for a safer outdoor environment
- ◆ Outstanding warranty coverage with exclusive SureStart™ parts and labor protection

Kingston Vinyl Railing, White with Square Balusters

Meeting the standards of the ICC

The ICC (International Code Council) is an independent, nonprofit organization responsible for the development of national model construction codes. The ICC Evaluation Service, Inc. (ICC-ES) is the leading source of technical information on building codes, products and technology in the United States. ICC-ES conducts technical evaluations of building products, components, methods and materials. Building industry professionals look to ICC-ES evaluation reports for evidence that products and systems meet code requirements.

EverNew railing systems comply with the standards established by the ICC. The Kingston vinyl railing system is officially listed with the ICC-ES as designated in report number ESR-1555. The Oxford railing system has undergone third party testing as designated in report number CCRR-0187. The Panorama composite railing system has undergone third party testing as designated in the report CCRR-0115.

CERTAINTEED EVERNEW®: YOUR ONE-STOP SOURCE FOR QUALITY PRODUCTS

EverNew railing is designed to keep its good looks for years to come, without a lot of maintenance. It won't warp, rot, split or corrode, and it never needs staining or painting.

Easy-living benefits

- ◆ Consistent quality and appearance
- ◆ Easy to install and clean
- ◆ Concealed fasteners
- ◆ Virtually maintenance-free; no painting or staining
- ◆ Class A fire rating
- ◆ Safe and secure
- ◆ Outstanding warranty coverage
- ◆ SureStart™ protection

Rest-assured features

Very high maintenance		Low maintenance
Prone to rot and decay		No rot or decay
Splinters, cracks, knots		No splinters, cracks or knots
Toxic chemical preservatives		No toxic chemical preservatives
Class C fire rating		Class A rating flame spread

Pressure-treated wood

EverNew vinyl

Choose the EverNew system that's right for you

vinyl:

- ◆ Durable construction – weatherable vinyl exterior with aluminum reinforced rails offers low maintenance
- ◆ Precision-fit components provide a snug, secure fit with fast and easy installation
- ◆ Safe and sound metal-to-wood and metal-to-metal rail-to-post connections
- ◆ Convenient packaging in complete section boxed kits
- ◆ Wide variety of accessories, including posts, caps, and post trims that coordinate with all railing systems

capped composite:

- ◆ Solid construction – a blend of PVC and recycled maple wood flour with high-quality PVC capstock for low maintenance
- ◆ Precision-drilled components provide fast and easy installation
- ◆ Secure metal-to-wood rail-to-post connection
- ◆ Convenient packaging in complete section boxed kits or packs for easy color mixing and matching
- ◆ Designed to work with a variety of vinyl accessories, including posts and handrail

With EverNew, you can rest assured that years from now our products will perform as beautifully and securely as the day they were installed. CertainTeed stands behind the EverNew decking and railing products with exceptional warranty protection, for your added assurance of quality and safety.

EverNew® LT

CertainTeed partners with Fiberon, an established leader in new technology and design innovation for the composite decking segment.

EverNew LT in cedar

EverNew® LT Decking with Lumenite™ Technology

EverNew® LT Decking's solid-core, PVC can take whatever your life dishes out. This new breed of building material stands up to kids, families, pets, blazing sun, harsh weather – and the spills, thrills, wear and tear that come with them.

Lumenite is a patent-pending innovation from Fiberon that gives EverNew LT Decking unsurpassed performance capabilities. An engineered, fusion-bonded surface technology, Lumenite provides the ultimate in stain, fade and mold resistance.

Stain and Fade Warranty

EverNew LT Decking is not affected by wine, tea, coffee, catsup, barbecue sauces, mustard and the many other drips and spills of outdoor dining. And, extensive testing proves that EverNew LT colors will stay true even after twenty-five years of exposure to the sun and elements.

EverNew LT deck boards and fascia

	Actual Width	Actual Thickness	Available Lengths
5/4x6 Deck boards	5-1/2"	1"	12', 16', 20'
Fascia	11-3/4"	1/2"	12'

Easy, Accurate Installation

EverNew LT installs without pre-drilling and won't mushroom like wood. It can be fastened to a pressure-treated wood substructure and is lighter in weight than other composite decking materials so it's more installer-friendly.

Independent tested as designated in report CCRR-0152.

Optional Hidden Fastener System

For the ultimate in a smooth, clean appearance, EverNew® LT Decking can be installed using a system that "hides" the fasteners. The key to this system is the Deck Pilot®.

CELLULAR PVC
DECKING
WITH LUMENITE™

EverNew® LT Decking is a new breed of cellular PVC decking material. It delivers ultra-low maintenance performance superior to any PVC decking available today. The unique Lumenite™ surface provides unequaled stain, fade and chalk resistance and stands up to whatever life dishes out. Choose from a beautiful array of solid and multi-chromatic colors.

- ◆ Available in: 12', 16' and 20' lengths
- ◆ Ultra-low-maintenance performance superior to any PVC decking in the marketplace
- ◆ Unique, patent-pending Lumenite™ surface provides unequaled stain, fade and chalk resistance
- ◆ Non-organic surfaces are highly mold resistant
- ◆ Infrared heat-reflective surface is cooler underfoot
- ◆ Easy to clean
- ◆ Lightweight for easier handling and installation
- ◆ Class A fire rated for flame spread
- ◆ Optional patent-pending Deck Pilot® tool available for installing hidden fastener system
- ◆ Lifetime Limited Performance Warranty including 25-year Stain and Fade Warranty

Revolutionary, stunning,
lasting satisfaction

Castle Gray

EverNew® PT Decking with PermaTech™ Innovation

EverNew® PT Decking's solid-core, wood plastic composite is designed for strength, durability, and rigidity. The inorganic, patent-pending PermaTech™ technology by Fiberon provides a resistant surface material and superior stain, fade and mold resistance. Tested to withstand the unexpected, nothing defies the elements quite like EverNew PT Decking with PermaTech innovation.

Tudor

Stain and Fade Warranty

EverNew PT Decking is not affected by wine, tea, coffee, catsup, barbecue sauces, mustard and the many other drips and spills of outdoor dining. And the industry-leading color retention is unmatched by any other product.

Brown

EverNew PT deck boards and fascia

	Actual Width	Actual Thickness	Available Lengths
5/4x6 Deck boards (grooved)	5.4"	.95"	12', 16', 20'
5/4x6 Deck boards (square edge)	5.4"	.95"	20'
Riser Board/Fascia	7-1/4"	3/4"	12'
Fascia	11-1/4"	3/4"	12'

Reversible Boards

Since EverNew PT decking is grained on both sides, two usable faces are available. This reversible board option may reduce waste by 15%.

Optional Hidden Fastener System

The use of the Fiberon approved Hidden Fastener System is highly recommended with EverNew PT grooved decking to create a smooth, unblemished decking surface.

Gunnable Fastener

Install the Fiberon approved Hidden Fasteners 50% faster with the Ballistic Nailscrew Driver, attachment and Ballistic Nailscrews. The Driver Attachment is for use with only the Ballistic Nailscrew Driver and the approved Hidden Fastener used on the grooved boards.

COMPOSITE DECKING WITH PERMATECH™

Get the best of both worlds with EverNew® PT composite decking. EverNew PT features a durable composite core surrounded by an innovative, inorganic protective surface for exceptional stain, fade and scratch resistance. The color offering includes rich, tropical tones with exotic hardwood grains that provide the natural look of wood.

- ◆ Available in: 5/4 x 6" boards in 12' 16' and 20' lengths
- ◆ Innovative inorganic PermaTech™ surface encapsulates the wood plastic composite core – providing stain, fade, and scratch resistance
- ◆ Ultra-low maintenance – easy to clean
- ◆ Reversible boards with four distinct, complementary grain patterns
- ◆ Rich, deep color palette
- ◆ Resistant to termites, splinters, and decay
- ◆ Recycled content creates sustainability
- ◆ Fiberon approved Hidden Fastener system also available
- ◆ 25-year performance warranty including 25-year stain and fade warranty

UnderShield® creates new possibilities for your home.

A beautiful deck is easy to love, from the top. Now, you can love your deck from underneath as well, with the beautiful possibilities of UnderShield®. A unique, vinyl shield and ceiling system, UnderShield turns an unsightly deck underside into a dry, beautiful ceiling, creating limitless options for new exterior living spaces.

Create dry patio space under the deck and extend usable living space with a patio, screened porch or hot-tub retreat around the home.

Custom Restoration Millwork® columns and brackets, combined with the UnderShield Water Diversion System, creates a formal yet inviting area.

Under the deck is a perfect area for storage of frequently used outdoor toys, lawn and garden equipment and more.

Beaded in colonial white.

DECKING ACCESSORY

Designed to respond to the needs of building professionals and homeowners, UnderShield is easy to install to new or existing decks, and will maintain unobstructed air flow when properly installed. Panels can run parallel or perpendicular to the home, and an easy-to-use clip creates the desired pitch.

- ◆ Low maintenance water diversion system
- ◆ Easy to install adjustable grid system
- ◆ Concealed clip system
- ◆ Stainless steel hardware provides security and lasting performance
- ◆ High quality vinyl panels
- ◆ Available in 6" x 16' panels
- ◆ Choice of 2 panel styles and 3 colors
- ◆ Suitable for 1 and 2-story residential applications
- ◆ Lifetime limited warranty
- ◆ Installs under the deck joist - no need to worry if the framing is 12" or 16" on center
- ◆ Helps maintain the required ventilation under the deck for most composite deck boards
- ◆ Since it installs under the framing, there is no need to worry about any bracing that may have been installed between joists

UnderShield is available in beaded or chamfer panels (A). System also includes clips (B), grid system (C), fascia panels and stainless steel hardware (not shown).

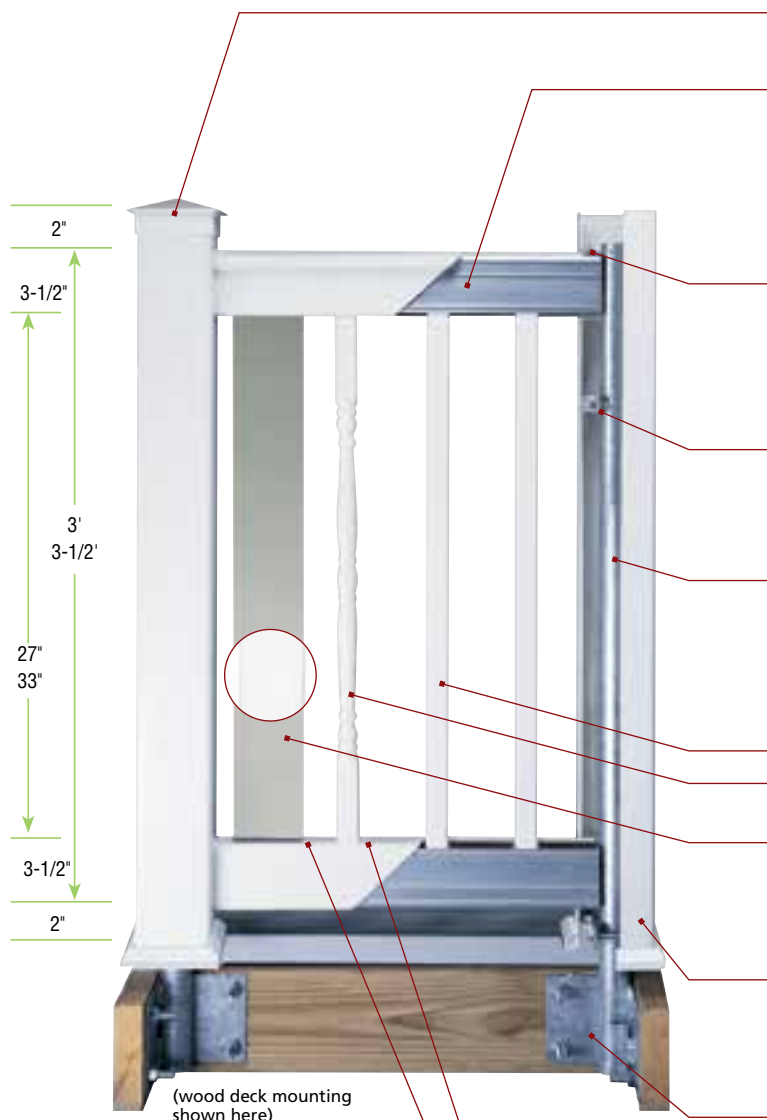

As precipitation drips between deck boards it is collected directly below by UnderShield and diverted away leaving a dry space under your deck. (Gutter sold separately. Not a CertainTeed product.)

Oxford with colonial balusters in white

Metal-to-metal system

Post caps and trims

Aluminum reinforced top and bottom rail

- 6' standard in flat, stair and steep stair
- 8' standard in flat, stair and steep stair
- 10' standard in flat and stair

Rail plate

- Made of stainless steel
- Screw flange secures top rails inside post
- Oval cut out works for all flat and stair applications

E-Z Set brackets

- Made of aluminum
- Keeps post square and snug

Sturdy post support pipe

- Hot-dipped galvanized steel
- 1-5/8" outside diameter

Baluster styles

- Square
- Colonial (white and almond only)

4" tempered glass baluster infill

- Clear available in 3-1/2' only
- Smoked available in 3-1/2' only

Weather-resistant vinyl post sleeve

- Square available in 3' and 3-1/2' heights

Secure post mounting systems

- Post support kits provided for both wood and concrete applications

Hardware options for concrete post support kit

- Self leveling kit for concrete post support kits; ideal for ramps
- Stainless steel hardware kit for the concrete post support kit is also available to deliver improved corrosion resistance. Ideal for coastal climates

Attractive precision-fit components

Baluster hole spacing

- Top and bottom rails are routed to accept 1-1/4" x 1-1/4" balusters.
- Stair baluster spacing is wider to account for racking.

Stair/step section

- Post center spacing on diagonal 6' section covers 68" at 32°
- 8' section covers 90" at 32°, 10' section covers 117" at 32°
- 6' section covers 71" at 42°, 8' section covers 96" at 42°

Standard: 25° min–37° max
Steep stair: 37° min–42° max

Oxford Gate Kit

Improved design for enhanced performance and easier ordering.

- Heavy duty internal aluminum frame.
- Stainless steel fasteners.
- Features 2x4 rails.
- High quality gate hardware.
- Available in all colors, both heights, and square & colonial balusters
- Easy to assemble

Routed Post Options

Posts are routed for both flat and stair (up to 37°) applications. Steep stair rails are routed for 42° and designed for the routed system only.

EverNew glass balusters combine high-end style with the quality and performance features that are distinctly CertainTeed. Our glass balusters are designed to work with either the routed or bracketed Oxford railing system.

- ◆ 3-1/2' height offers a clearer view with less obstructions
- ◆ Easy to order — no need for custom sizing
- ◆ Easy to install — routed rails eliminate the need to fasten and screw balusters without extra brackets
- ◆ Beveled baluster works for both flat and stair applications
- ◆ 4" x 3/8" tempered glass
- ◆ Choice of clear or smoked glass
- ◆ Independent tested as designated in report CCRR-0187
- ◆ Suitable for one and two family dwellings and townhomes that are not more than three stories high
- ◆ Lifetime limited transferable warranty with SureStart™ protection
- ◆ Post connections available in bracketed and routed

Clear Balusters

Smoked Balusters

VINYL ROUTED RAILING SYSTEM

For safe, secure vinyl railing applications, there's no better choice than the Oxford routed system. The routed Oxford system features a unique internal rail-to-post connection and hidden hardware, so there are no unsightly brackets to detract from the look of the railing. The aluminum reinforced rail connects to a sturdy galvanized post support kit inside the routed post, for a completely concealed metal-to-metal connection.

- ◆ Popular T-rail top rail and 2x4 bottom rail system for a completely seamless appearance
- ◆ The ultimate hidden hardware system
- ◆ Internal rail-to-post connection means no unsightly brackets
- ◆ Complete metal-to-metal, the aluminum reinforced rail connects to a sturdy galvanized post support kit inside the routed post
- ◆ Posts routed specifically for all post applications – post support kits mount to wood and concrete installations
- ◆ Choice of three colors and three baluster styles
- ◆ Available in two heights and three lengths
- ◆ Independent tested as designated in report CCRR-0187
- ◆ Suitable for residential and commercial applications – including multifamily and over three story installations
- ◆ Meets IBC standards for building safety
- ◆ Class A rating for flame spread
- ◆ Lifetime limited transferable warranty with 5-year SureStart™ protection

Post cap and trim kit

Deco cap accessory snaps onto Panorama post cap. Available in antique bronze and oil-rubbed bronze finish to coordinate with decorative steel balusters.

PVC COMPOSITE RAILING SYSTEM

The Panorama® capped composite railing system features a classic painted wood railing design with handcrafted authenticity and true architectural details you won't find on any other composite railing. Panorama's concealed, corrosion-resistant stainless steel hardware provides years of worry-free performance. Panorama integrates with CertainTeed's vinyl accessories, allowing you to create exciting new exterior designs.

- ◆ Classic painted wood style with true architectural details
- ◆ Convenient universal rails for the top and bottom rails, topped off with a decorative top rail cap
- ◆ Concealed external rail-to-post connection and a patent-pending bracket for a seamless appearance on flat, stair, column and 45° applications
- ◆ Corrosion-resistant stainless steel hardware provides safety, security and long-lasting performance
- ◆ Available in two heights and two lengths
- ◆ Choice of three colors and three baluster styles
- ◆ Powder-coated, hot-dipped galvanized steel decorative balusters create a rustic yet customizable system approach for both flat and stair applications
- ◆ Steel balusters available in convenient boxes of 10 per style, for a variety of design possibilities (flat and stair baluster shoes sold separately in bags of 20)
- ◆ Suitable for one- and two-family dwellings/townhouses not more than three stories high
- ◆ Independent tested as designated in report CCRR-0115
- ◆ Class A rating for flame spread
- ◆ 25-year limited warranty with 2-year SureStart™ protection
