

Housewrap Seaming Tape

www.AlphaProTech.com

REX™ Bluebond is designed as a very strong blue polypropylene tape for use as a high performing house wrap seaming tape. Acrylic adhesive provides bond strength in cold weather environments as well as tropical heat environments. It is also formulated to have a quick tack adhesion aiding in the installation along with resistance to aging, weathering, sunlight and yellowing. The tape surface is a 1.6 Mil film layer that has high strength in the cross and machine directions. The roll dimensions make it the most user friendly tape on the market as it is a full 3" wide and comes with 330 lineal feet on a roll giving you a full 2 roll coverage as opposed to the leading competitors tape. Fewer rolls to manage and a width to insure full coverage of seams. Because of the unique blue color, it is easily identified by building officials to insure the job is done right. REX™ Bluebond is the tape of choice by leading contractors across the country. Ask for it by name!

REX™ Bluebond Housewrap Seaming Tape Properties

PROPERTY TESTED		RESULTS
Backing		Polypropylene
Adhesive Material		High Tack Acrylic
Thickness		
	Backing	1.6 Mil
	Adhesive	1.4 Mil
Adhesion (Peel)		
	Housewrap	32.0 oz/Inch
	Stainless Steel	65.6 oz/Inch
Tensile Strength		32 Lbs/Inch Width
Elongation		133%
Color		Blue
Roll Width		3"
Roll Length		110 Lineal Yards - 330 Lineal Feet
Min. Temperature Resistance		-20° F
Max. Temperature Resistance		+220° F

Shelf Life: Recommend one year from date of receipt by customer when stored under optimum conditions. (70°F, 50% RH)

Note: To the best of our knowledge, these are typical property values and are intended as guides only, not as specification limits.
